We have the state of the art facility and our organization is based on the core values which help to endeavour client satisfaction and fulfilment. We ardently work towards the requirement of our clients. Our qualified staff diligently aspire to improve and provide our customers the optimal quality of scaffolding material.

SCAFFOLDING

The material that is required to erect and dismantle the structure is called the scaffolding. We offers various scaffolding products to its customer.

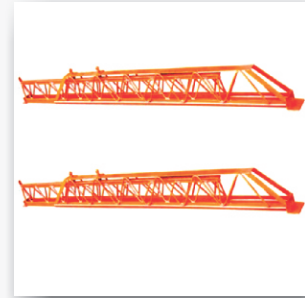

Advantages of Scaffolding

- Portable
- Highly Accurate and precise
- Easy handling
- Installation is easy
- High load bearing capacity

Acro Span

Acro Spans are ideal to be used as self – supporting runner in shuttering systems. Moreover, Adjustable Beam spans are installed under shuttering plates or floor from panels

Acro span have a standardized size i.e.
2.5 x 2.5 meter (2350 x 2350 mm)

Adjustable stirrup head

The Adjustable Stirrup Head is used at the top of the standard to provide an additional maximum adjustment of 300 mm

Available in sizes

- U size 100*100*50 length 350mm
- U size 100*100*50 length 450mm
- U size 100*100*50 length 550mm to 600 mm

Adjustable Base Jack

The adustable jack is used at the bottom of the scaffold to provide an additional adjustment of up to 300 mm–600mm.

Available in sizes:

- Base plate 150*150 length 350mm
- Base plate 150*150 length 450mm
- Base plate 150*150 length 550mm to 600 mm

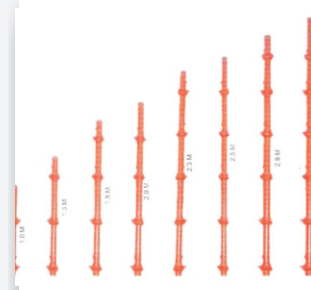

Cuplock Standard/Verticals

Cuplock standard have cup joints welded at every 500mm intervals, thus offering levels for working & also for bracing the standards while using in the slab support when loaded fix. Verticals are made of 40 NB medium/ heavy class pipes and drilled to fix spigot joints.

Feature

- Galvanized Scaffolding
- Powder Coated Scaffolding
- Dip Paint Scaffolding

Sizes In mm	No. of Cups @500 mm	Weight in Kg
3000	6	13.00*
2500	5	11.00*
2000	4	8.90*
1500	3	6.50*
1000	2	4.50*
500	1	2.35*

ISMC Channels

Indian Standard Medium Channel (ISMC) are used to hold the building in construction. ISMC channels are made sturdy and heavy to uplift the construction site so that it won't collapse. The company manufactures apex quality of channels in the industry.

Height in feet	Size
8	100*50
9	100*50
10	100*50

Ms Chali

MS Chali used as scaffolding platform. It is used for outer walls in purposes like plaster, glassfitting, cleaning etc.

MS chalis has standardized size i.e.

18 Inch x 2 Meter.

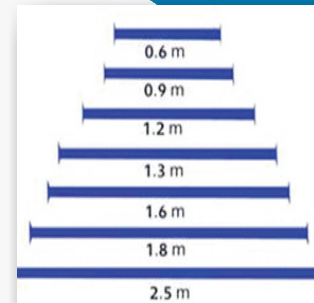

Cuplock Ledger/Horizontal

These ledgers have forged blade ends which fit in the cup joint on the standard. They can be used in variety of Ledger size combinations to suit required bay size & loading conditions. Length of the ledgers or horizontal is measured between center to center of two verticals.

Feature

- Simple Robust Design
- Low Maintenance
- Durable Standards

Sizes In mm	Length in mm	Weight in Kg
2000 c/c	1950	7.00*
1800 c/c	1750	6.00*
1500 c/c	1450	5.00*
1200 c/c	1150	4.00*
1000 c/c	950	3.50*
915 c/c	870	3.00*

MS PLATE/CENTERING/STEEL PLATE

Shuttering plate is made of high quality 3mm sheet with 35x5 mm steel angle. It is water tight shuttering which can bear the load of cement concrete placed on it. It can be used for horizontal, vertical or any other shape required for the work.

It gives leveled surface which has good appearance. If the plaster is required, the thickness of plaster will be less.

Advantages

- Steel Plates are stronger, durable and have longer life than timber framework and their reuses are more in number
- Steel plates do not absorb moisture from concrete
- Steel Plates do not shrink or warp

MS Plates are available in the following sizes:-

2' x 3' (600 x 900 mm)
9" x 3' (230 x 900 mm)
1' x 3' (300 x 900 mm)
15" x 3' (375 x 900 mm)
18" x 3' (450 x 900 mm)
1.5' x 4' (450 x 1200 mm)

TELE PROP

Prop is a labor and time saving device to support shuttering and centering. It is made out of 60mm O.D. & 48mm O.D. tubes moving in each other telescopically. A heavy duty S.G. iron nut provides fine adjustment of height of prop. Top and bottom plates are provided with nail holes for wooden runner and holes for bolting. While after using props one above other. It is essential to have bracing in two directions just above outer tube for freight beyond 3500mm. Use of props by double staging is recommended up to 7000mm height only. The threads are rolled and not cut threads.

Available in sizes

Prop 2*2 mtr

Prop 2*3 mtr

Prop 3*3 mtr

	Length in mm	Inner dia(mm)	Outer dia(mm)
Prop Inner	2000	40	48
	3000	40	48
Prop Outer	2000	50	58
	3000	50	58

Joint pin

We are offering various Joint Pins Or Spigot Supply's which are engineered specifically in order to attain utmost dimensional accuracy. We are supplied by authentic suppliers and the finishing of these pins are really magnificent. Our dimensionally perfect joint pins are designed for end to end (axial) association when the tubes are in compression by our eminent engineers. These pins are highly demanded for its performance and accuracy.

Clamp Swing

Our competent experts put their effort to make the Pressed Swivel Couplers very effective compared to other swivel couplers supplied by our rivals. For its wonderful design it gives supreme performance. Superb engineering, operational efficiency, durability and excellent quality are the important features that we are concentrating upon to serve our clients with high quality products.

Clamp Fix

Our competent experts put their effort to make the Pressed Swivel Couplers very effective compared to other swivel couplers supplied by our rivals. For its wonderful design it gives supreme performance. Superb engineering, operational efficiency, durability and excellent quality are the important features that we are concentrating upon to serve our clients with high quality products.
